## Upload Video

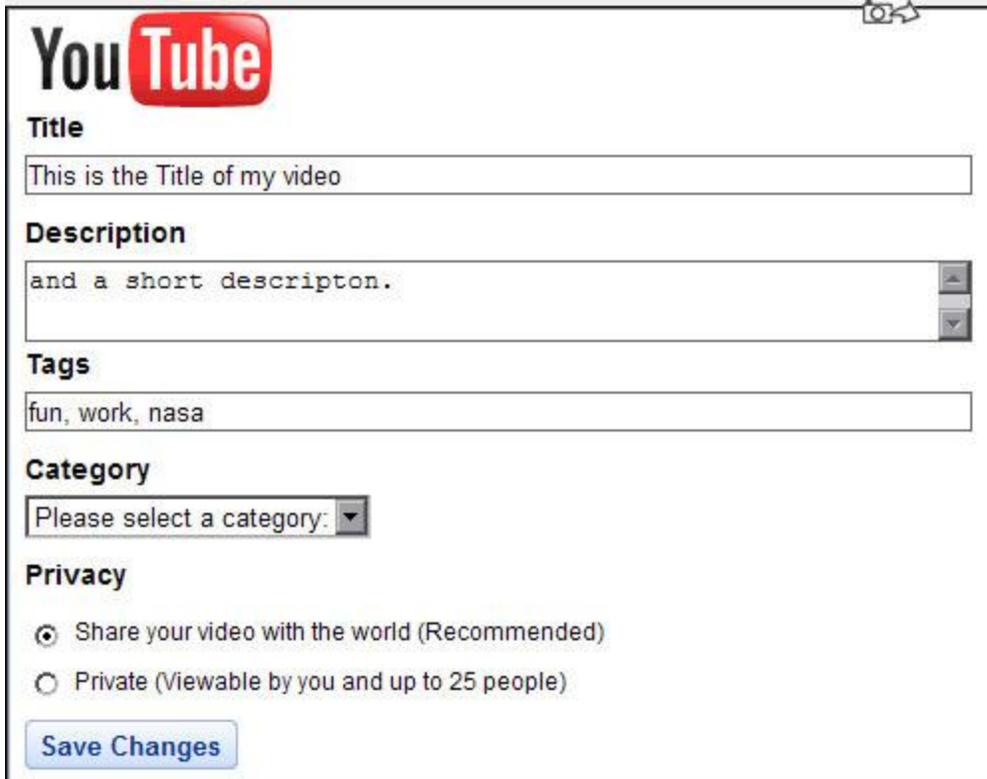

The video portion of the contest is powered by YouTube™. To enter your 30-second video in the contest, [click here and upload it to YouTube](#). If you are not already a member, you will need to register with YouTube as well. The first screen will look similar to this:

In this step you will locate and upload your video. Click the Browse button and use the file select dialog to find your video file. Select your video, then click the Upload Video button. Your browser will then refresh to the next screen.

The next screen will display your video file name with an animated circle before it. The status of your upload is displayed to the right. While the video is uploading, you can fill out the information about your video.

The image shows the YouTube video upload form. At the top left is the YouTube logo. Below it are several sections: 'Title' with a text input field containing 'This is the Title of my video'; 'Description' with a text area containing 'and a short descripton.'; 'Tags' with a text input field containing 'fun, work, nasa'; 'Category' with a dropdown menu showing 'Please select a category:'; and 'Privacy' with two radio buttons: 'Share your video with the world (Recommended)' (which is selected) and 'Private (Viewable by you and up to 25 people)'. At the bottom left is a blue 'Save Changes' button.

Give your video a title and write a simple description. Select a category for your video and enter a few descriptive tags for it (e.g., NASA, work, space, etc.) Please **DO NOT** set your video to private.

The image shows the YouTube video upload success confirmation screen. At the top left is the YouTube logo. Below it is a green checkmark icon followed by the text 'your.nasa.video.flv'. To the right of this is the word 'Success'. Below the checkmark and video name are two links: 'Add Video Name, Description, and Edit Privacy Settings' and 'Embed and Sharing Options'. A mouse cursor is pointing at the 'Embed and Sharing Options' link. Below these links is a text input field labeled 'URL' containing the URL 'http://www.youtube.com/watch?v=hOQ143AlqBE'.

After a few minutes the animation by your file name will be replaced by a green checkmark. This is confirmation that your upload was a success. Click on Embed and Sharing Options to reveal your videos link, then navigate to that URL.

Once your video has finished processing, you can watch it. On the right side of the page under your video's description is your embed code. Highlight all the text in the embed code box and copy it. (Press CTRL+C, or right click on the text and select Copy.) After you have copied your embed code, paste it into the textbox below. (Press CTRL+P, or right click and select Paste.) Enter a title for your video, press the Submit button, and you're finished!

## Enter the Contest
